

MG1 ECU tuning procedure

Order placed

Customer places an order for a tuning kit where MG1 ECU unlocking is required. The MG1 Config App will automatically be activated for the vehicle. When placing the order, the customer also pays a deposit.

Shipping

Maptun sends customer an unlocked MG1 ECU and a Maptuner and license if required.

Installation and MG1-config

The customer receives the unlocked ECU. Before installing it; make sure to run Add Vehicle on the existing ECU. After that proceed by installing the unlocked ECU and then runs MG1 Config App using the Maptuner.

Returning ECU

Customer returns original ECU to Maptun using the prepaid shipping label provided in the package.

Deposit refund

The deposit is refunded to the customer as soon as the ECU is returned and inspected.
